AREEJ AL-DOBAGH

FULL-STACK WEB DEVELOPER | CYBERSECURITY ENGINEER

Zarqa, Jordan | +962 78 501 9582 | areejaldabbagh03@gmail.com | linkedin.com/in/areej-al-dobagh | github.com/are3ej

PROFESSIONAL SUMMARY

Full-stack web developer with a B.Sc. in Cybersecurity, building secure, production-ready applications with React.js, Flask, and Firebase. Delivered an 8+ page client application with authentication, role-based access, and an admin dashboard in a two-month cycle; trained in a SOC triaging 150+ daily alerts in Splunk. Applies OWASP Top 10 secure coding to every build.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive & Mobile-First Design, Reusable Components

Backend & Data: Python (Flask), REST APIs, Node.js (basic), SQL, Firebase (Authentication, Cloud Firestore, Storage, Hosting)

Security: OWASP Top 10, Secure Coding, JWT, RBAC, XSS Mitigation, Input Validation, Splunk (SIEM), SPL, Log Analysis, Incident Response, Kali Linux, Nmap, Wireshark

Tools & Workflow: Git, GitHub, Postman, Docker (basic), Linux, Agile/Scrum

PROFESSIONAL EXPERIENCE

SOC Trainee Sep 2025 – Dec 2025

Green Circle for Software Solutions | Amman, Jordan

- Monitored and triaged **150+ security alerts daily** across Windows Event Logs, Linux Syslogs, and web application logs using Splunk SIEM in a multi-platform Blue Team environment.
- Developed **12+ custom SPL queries** and alerting rules detecting brute-force attacks, suspicious PowerShell execution, and anomalous user behavior.
- Investigated **20+ security incidents** through root-cause analysis and documented standardized reports; tuned detection thresholds with GRC and penetration-testing teams, reducing false positives.

Freelance Full-Stack Web Developer 2025

Mohja Company (Client) | Remote · Live: mohja-1a6d4.web.app · Code: github.com/are3ej/mohja

- Designed, developed, and deployed a production-ready **8+ page web application** for a real client within a **two-month** delivery cycle, including an admin dashboard for real-time business data management.
- Architected the Firebase backend (Authentication, Cloud Firestore, Storage, Hosting), enforcing security rules and role-based access for **three user tiers**.
- Diagnosed and resolved production issues in authentication flows, file uploads, and database permissions, improving application stability and access control.

Frontend Developer Intern Aug 2024 – Oct 2024

Softylous | Zarqa, Jordan

- Developed **5+ responsive, pixel-accurate pages** and **15+ reusable React components** with HTML5, CSS3, JavaScript (ES6+), and React.js, cutting frontend development time by ~**25%** across sprints.
- Collaborated with designers and backend developers through Git-based Agile workflows, peer reviews, debugging, and performance optimization.

SELECTED PROJECT

Secure Content Grabber System — Graduation Project 2025

- Built a React.js and Flask application for automated video analysis, speech-to-text extraction via the OpenAI Whisper API, and structured JSON reporting.
- Implemented JWT authentication, rate limiting, environment-based secrets, input and file validation, XSS output encoding, and SQL injection prevention.

EDUCATION

B.Sc. in Cybersecurity — Zarqa University, Jordan Jul 2025

GPA: 84.7% (Excellent)

Full-Stack Web Development Professional Training — Hashemite University Jan 2026

NOMU Al-Ghurair Initiative / HTUx

CERTIFICATIONS & TRAINING

- SOC Analyst Training (120 Hours) — Green Circle for Software Solutions | 2025
- Cyber Security Associate — Green Circle for Software Solutions | 2025
- Penetration Testing Practitioner (PTP) — Cyber Shields | 2024
- CompTIA Security+ — In Progress
- JavaScript, CSS & HTML Development — Orange Coursat (EU Co-funded) | 2024
- UI/UX Design (32 Hours) — The Hope International Company | 2023–2024

Languages: Arabic (Native) | English (Professional Working Proficiency)
